

Chirag Jaiswal

MERN Stack Developer | Software Developer

Indore, Madhya Pradesh, India | +91 9109351437 | chiragjaiswal9109@gmail.com

Portfolio | LinkedIn | GitHub | LeetCode

Summary

MERN Stack Developer skilled in building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in RESTful API development, JWT/OTP authentication, responsive UI development, and real-time application features. NPTEL Gold Medalist in Programming in Java and Oracle AI Foundations Associate, with strong Data Structures and Algorithms fundamentals and a focus on clean, maintainable code. Seeking a Software Development or Full-Stack Development internship to contribute to real-world applications and grow in a professional engineering environment.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: React.js, Redux, Node.js, Express.js, React Router, Tailwind CSS, Socket.IO

Databases: MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman

Concepts: Data Structures & Algorithms, OOP, MVC Architecture, API Integration, Authentication (JWT, OTP), Debugging

Projects

BookMyTurf – Turf Booking Platform | GitHub

Apr 2026 – Jun 2026

- Architected a full-stack turf booking platform enabling end-to-end venue discovery, reservation, and management, by integrating a React.js frontend with a Node.js/Express.js REST API and MongoDB backend.
- Eliminated password-based login friction and strengthened account security, by engineering a passwordless Email OTP authentication flow using JWT and bcrypt.
- Automated real-time booking alerts for users, by integrating Socket.IO to trigger live toast notifications and sound cues on status changes.
- Reduced manual admin workload for venue and refund management, by building a dedicated Admin Dashboard with full CRUD control over listings, bookings, and refund status.
- Secured application routes and preserved data integrity across the booking lifecycle, by implementing protected routes, cancellation workflows, and a persistent MongoDB data layer.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Socket.IO, Nodemailer

Forever – E-Commerce Web Application | Demo | GitHub

Jan 2026 – Mar 2026

- Delivered a complete e-commerce platform covering product catalog, cart, and authentication, by building the full application on the MERN stack from scratch.
- Enabled reliable product and order management, by designing RESTful CRUD APIs in Express.js backed by persistent MongoDB storage.
- Improved usability across devices, by implementing a fully responsive UI with React.js and Tailwind CSS.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB

Education

Swami Vivekanand College of Engineering, Indore

B.Tech in Computer Science and Engineering, CGPA: 6.95

2023 – 2027

Alpha Higher Secondary School, Nimach

Class 12th, Percentage: 83.2%

2022 – 2023

Alpha Higher Secondary School, Nimach

Class 10th, Percentage: 98%

2020 – 2021

Certifications

- **Programming in Java – NPTEL, IIT Kharagpur** (Nov 2025): Gold Medalist; gained foundational knowledge of Java programming and object-oriented programming concepts.
- **Oracle AI Foundations Associate – Oracle** (Aug 2025): Gained foundational knowledge of Artificial Intelligence and Machine Learning concepts.
- **React JS Development – GeeksforGeeks** (Nov 2025): Learned React.js, Hooks, Redux, API integration, and modern frontend development.
